

ABOUT US

Our on-the-day wedding stationery and signage is designed to seamlessly complement your wedding aesthetic from arrival through to reception. Rosie Days Studio works closely with Rachel Garnam, a graphic designer with a Degree in Communication Design and a botanical-inspired approach, to ensure a beautifully cohesive visual experience between your wedding florals and printed stationery.

Our design services include the design, printing, and setup of menus, bar menus, place cards, table numbers, seating charts and welcome signs. Additional on-the-day items can be discussed and tailored to your needs upon request.

BESPOKE PACKAGE

Our bespoke design package is carefully tailored to your wedding aesthetic and florals, capturing the essence of your day and leaving a lasting impression. Designed with intention, we work closely with you to design a completely original stationery suite suited perfectly to your day.

After booking, your experience begins with a detailed design questionnaire allowing you to outline your preferred style, edge finish, colour palette, overall aesthetic and attach your Pinterest board if desired. From there, we design a bespoke stationery suite that feels personal and unforgettable.

SEMI-CUSTOM PACKAGE

While we do offer full bespoke design, couples who fall in love with one of our existing designs may opt for our semi-custom package. This provides a more minimal investment without compromising on quality.

The designs shown on the next page show our current collection styles. These designs can be thoughtfully personalised with your wedding details, offering couples something personal without starting from scratch.

PRINTING & FINISHES

Welcome signs, bar signs and seating charts are professionally printed on durable foam board and presented on elegant timber easels.

Table stationery is printed on your choice of card stock that includes gloss, pearl, premium matte, recycled, Italian linen, or corn stock.

Our range of edging finishes includes straight, rounded corners, or scalloped edging.

While we are happy to discuss further finishing options throughout the design process, please note that at this time our current offerings do not include foiling, embossing, metallic inks, die cutting, duplex paper or specialty materials.
